

# Access 2010 User Guide Online

**Access 2010 User Guide Online** - Guide to the Access 2010 user interface. Two main components of the user interface — the ribbon and the Navigation Pane — were introduced in Access 2007. Several changes have been made to the ribbon, and a third user interface component — the Microsoft Office Backstage view — is new in Access 2010. Microsoft® Access® 2010 is all about simplicity, with ready-to-go templates that get you started and powerful tools that stay relevant as your data grows. Access empowers you to make the most of your information—even if you're not a database expert—with few barriers and a small learning curve. microsoft access 2010 user guide such as: anna university vlsi question paper , vizio tv instructions manual, materials science callister 6th edition , 2012 honda pilot navigation manual, ford windstar repair manual online , difference between solutions and suspensions , Access 2010 More... Less If you know Access 2007, used an earlier version of Access, or have never used Access before, explore these resources to begin learning how to use the latest version.
