Having machine shop, fuel calibration and dynamometer capability, we are uniquely positioned to serve owners of diesel engines to 250 BHP. The Ford "4D" & "6D", which are commonly called the Dagenham series engines, and their later offspring, the Dorset (2700+ & 2710+) and Dover series (2720+) became very popular in Europe as well as globally in automotive, agricultural, industrial (eg. power) and marine applications. Ford themselves did not produce a marine version of their engines until the Dover Series, however many Ford of Britain engines and a number of Ford licensed Spanish and Turkish (Ford Otosan) versions of these engines were marinised by third party companies or by individuals, and installed in various vessels, especially Asian Trawlers. Most all of these engines were factory new, but there were ...
